## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with MR. Ohriner on 08/12/04.

The application has been amended as follows:

The title has been changed to read "Methods for removing metallic contamination from wafer containers".

In the specification, page 1, paragraph [0001], line 2, "pending" has been changed to read "abandoned".

In claims 1, 13, 14, 16, and 20, line 2, before "comprising", --- "said method"--- has been inserted.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yates et al. (6,703,319) disclose compositions and methods for removing etch residue. Verhaverbeke

et al. (US 2002/0102852) disclose cleaning method and solution for cleaning a wafer in a single wafer process.

3. The following is an examiner's statement of reasons for allowance: The prior art of record failed to teach a method for removing a metallic contamination from a wafer container (disclosed in the specification, page 1, lines 16-18), comprising spraying inside surfaces of the container with a solution of a liquid including a chelating agent as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zeinab E. EL-Arini whose telephone number is (571) 272-1301. The examiner can normally be reached on Monday-Friday.
